FEATURED PROJECTS

AI-Powered-Virtual-Lab-Assistant - April 2026

Built a Flask-based web app that delivers experiment-wise explanations, diagrams, PDFs, and AI-driven viva questions with voice input support for faster lab learning.

AI Life Copilot - Mar 2026

An AI-powered lifestyle intelligence platform that helps users manage health, productivity, and habits with intelligent insights and a conversational assistant.

InkVerse - Club Website - Feb 2026

Collaborated on developing the official website for InkVerse Club, SRMIST Vadapalani, implementing user-friendly features. Served as Secretary (BOD) and Treasurer, mentoring juniors and managing ground works and financial operations.

TrackPal - A Bus Tracker - Dec 2025

Contributed to the Smart India Hackathon 2025 by developing a functional website prototype using HTML, Tailwind CSS, and JavaScript for the project's initial phase, laying the foundation for full-scale development.

EmpowHer – Jun 2025

Developing an AI-powered financial guidance platform to help women manage budgeting, savings, and financial literacy.

EXPERIENCE

AI & Full Stack Engineer • Feb 2026 – April 2026 SNR Automations – Hybrid

- Built a mini ERP system for a distributor handling brands like Nestlé, Britannia, Sunfeast, and Gold Winner across Kumbakonam, enabling centralized data management.
- Developed and deployed responsive applications across different industries.
- Collaborated with clients through on-site visits and remote coordination to understand workflows, implement solutions, and resolve system-level and UI issues.

Front End Developer • Jul 2025 – Sep 2025 ApexPlanet Software Pvt Ltd – Remote

- Developed responsive web interfaces and improved UI consistency.
- Implemented design updates and resolved layout issues.
- Collaborated with remote teams to enhance usability.
